One week training programme on

Python

August (2-8), 2024

Training Mode: Self-learning (Online)

Platform: NARES - Blended Learning Platform (BLP)

Brief About the Programme:

This training programme is designed to provide a comprehensive overview of the Python programming language. The course is suitable for beginners as well as those who have some experience with Python and want to deepen their understanding.

Training Objectives

- Understand Python basics

- Develop comprehensive understanding of File handling in Python

- Utilize NumPy for efficient numerical computations and Pandas for robust data manipulation and analysis

- Understand the principles of Object-Oriented Programming (OOP) in Python

- Create various types of data visualizations, such as charts, graphs, and plots, using Matplotlib

- Learn Concept of Database and its integration with Python

Who can Participate

Students, Faculty members (irrespective of their specialization) & Scientists

Participation Fee

Free of Cost

Course Coordinators

Dr. Soumen Pal
Senior Scientist,
Division of Computer Applications,
ICAR-IASRI, New Delhi

Dr. Chandan Kumar Deb
Scientist,
Division of Computer Applications,
ICAR-IASRI, New Delhi

Course Directors

Dr. Sudeep Marwaha
Head(CA) & PI, RAES Project
ICAR-IASRI

Dr. Rajender Parsad
Director,
ICAR-IASRI, New Delhi
